

All Country Radio - Artist Promotion Service

Here at All Country Radio we want to give artists an unrivalled service to promote their music, videos, gigs and other news to our audience. We have teamed up with Hotdisc to offer an exciting add-on to their **Premier Plus** package

Our Hotdisc Premier PLUS Add-on Package includes...

Social media promotion via our dedicated Facebook and Twitter accounts

A fully produced 20 second promo* of the track being promoted to run in rotation during station ad breaks

A fully produced 'Power Intro' version of the track* - which includes a specially produced intro to the track featuring the artist introducing the song. Power Intros are used by many radio stations around the world to make tracks stand out from the rest.

A special Hotdisc version of the track would be created for exclusive play on the Hotdisc Chart (minus the All Country Radio branding) meaning it would also be heard on every station around the world which currently air the programme

*(*This will require the artist to supply some audio introducing the track, full guidance would be provided by our in-house production team)*

An artist image featured on the 'Featured Artist' carousel on the homepage which would link to the artists own webpage, YouTube Channel, Social Media, Linktree etc.

A minimum of **eight**** plays a day on regular rotation (with further plays should the track be featured in the Hotdisc Top 30, which airs twice a day seven days a week)

***Minimum plays are averaged over a month long period*

Take advantage of Hotdisc Premier Plus and get your music played on the world's newest Country Music station - All Country Radio
